THE UNIVERSITY OF CHICAGO

The University of Chicago was founded in 1890 by John D. Rockefeller and Chicago-area Baptists. The University's Articles of Incorporation commit the institution to excellence in both undergraduate and graduate education, an explicit policy of co-education, and an atmosphere of non-sectarianism.

Biblical scholar William Rainey Harper agreed to become the first president of the University on the condition that he be allowed to establish a university that would be unlike any other. He conceived of a university that would emphasize the creation of new knowledge and "make the work of investigation primary." To this end, the University has always been dedicated to excellence in research, to educational programs embedded in the environment of inquiry this entails, and to seeking the most distinguished scholars for its faculty.

Over the years, the University and its faculty have had a major impact on American higher education. Faculty scholarship has shaped several essential disciplines and established important and distinctive "Chicago schools" in such disparate fields as economics, evolutionary biology, sociology, literary criticism, anthropology, law and economics, astrophysics, and mathematics. One hundred and one Nobel laureates have been members of the faculty, researchers, or students at the University.

Programmatic innovations originating at the University include the invention of the four-quarter system, the establishment of a coherent program of general education for undergraduates, the initiation of a full-time medical school teaching faculty, and the development of extension courses and programs in the liberal arts for adults.

The University includes an undergraduate College; the William B. and Catherine V. Graham School of Continuing Liberal and Professional Studies, the Divisions of the Biological Sciences, Humanities, Physical Sciences, and Social Sciences, and the Pritzker School of Molecular Engineering, which teach both undergraduate and graduate students; the Booth School of Business, Crown Family School of Social Work, Policy, and Practice, Divinity School, Irving B. Harris Graduate School of Public Policy Studies, Law School, and Pritzker School of Medicine, which teach graduate and professional students but with programs connected to the undergraduate College; and a diverse collection of academic support units and resources, including libraries, research institutes, clinics, museums, theaters, and the University of Chicago Press. The University of Chicago Medical Center is on the Hyde Park campus, and the operating relationships with Argonne National Laboratory, Fermi National Accelerator Laboratory, and the Marine Biological Laboratory are all important to enhancing the research and education taking place at the University.

The University has more than 3,000 faculty and other academic appointees, and an enrollment of more than 18,000 students. The 217-acre campus is located along the Midway Plaisance in Hyde Park, a residential community on Lake Michigan south of Chicago's Loop.

The University's English Collegiate Gothic buildings, built of gray Indiana limestone, were designed to frame shady, green quadrangles. Contemporary campus buildings have been designed in keeping with the original Gothic theme while drawing from the tradition of great modern architecture for which the city of Chicago is famous. Eero Saarinen and Ludwig Mies van der Rohe designed striking buildings for the Law School and the Crown Family School of Social Work, Policy, and Practice in the late twentieth century. More recent notable examples include the Charles M. Harper Center, designed by Rafael Viñoly as the home of the Booth School of Business; the Campus North Residential Commons and the Frank and Laura Baker Dining Commons, designed by Studio Gang Architects; and the David Rubenstein Forum, designed by Diller Scofidio + Renfro. The National Trust for Historic Preservation has praised the University for its insistence on architectural continuity over "a century of social and academic change."

THE TRADITIONS OF CONVOCATION

ABOUT CONVOCATION

The University of Chicago confers degrees in a ceremony we call Convocation, allowing students to receive their degrees following successful completion of the requirements of their academic programs. Convocations are also held to inaugurate University presidents or to celebrate milestones in the University's history.

Literally a "calling together," the University's Convocation assembles all elements of the University community: students and degree candidates, their families, the faculty, friends of the candidates and the University, the Officers of the Corporation, the Trustees of the University, the Provost, and the President.

It is significant that the University of Chicago has always referred to these occasions as Convocations rather than as "commencement exercises" or "graduation ceremonies."

Receiving a degree marks neither a new beginning nor a termination. Although for degree candidates it may be a rite of passage, the ceremony focuses on continuity in the search for knowledge.

At the first Convocation, the University's first president, William Rainey Harper, told those present that the ceremony was intended "to bind together into a unity the many complex and diverging forms of activity which constitute our university life and work." Convocation addresses consistently focus on the pursuit of knowledge and the power of ideas.

The procession to the Convocation ceremony site is typically led by the University's own bagpipe band. The members wear kilts made from a specially designed and woven University tartan.

ACADEMIC DRESS

The robes worn by participants in academic ceremonies originated when European universities were being formed in the twelfth and thirteenth centuries. Since many of the instructors came from religious orders and taught in unheated and drafty buildings, they adapted their religious robes for use as the university attire.

The long robe with an attached cape or hood became the standard, and variation in the costume indicated the rank of the person wearing it. They were worn every day and served to distinguish scholars and their students from other citizens. The apparel worn by university faculty seen in old engravings is remarkably similar to that worn today. The gown is a symbol of the democracy of scholarship since it covers any clothing indicating other rank or status. While everyday fashions changed, universities retained the earlier style for formal attire to be worn by students, graduates, faculty, and university officials on ceremonial occasions.

European universities each developed their own styles of academic dress, and the academic procession today illustrates some of that variety. In the United States, however, an intercollegiate congress in 1895 agreed on a single standard for academic dress that has been adopted by most American colleges and universities. Individuals with bachelor's degrees wear a black gown with long pointed sleeves. The gown of master's degree holders is also black, with sleeves that are squared at the end. Doctor's gowns are fuller with velvet facings down the front and three bars on the bell-shaped sleeves. While the usual color is black, within the past half century some American universities have adopted gowns of a color appropriate for each school. At the University of Chicago, our doctoral gown is maroon.

The cape of the earliest academic costumes has become a hood worn by individuals with doctoral degrees. It is placed over the shoulders and hangs down the back. The lining of the hood is folded out and its color indicates the school from which the wearer obtained his or her degree. The velvet border designates the degree area of study (white for arts, yellow for science, blue for philosophy, drab for business, green for medicine, purple for law, and red for divinity). University of Chicago honorary degree recipients receive a hood with facing in white (doctor of humane letters), purple (doctor of laws), or yellow (doctor of science).

The first right of a freed Roman slave was the privilege of wearing a cap, so the academic cap is the sign of the freedom of scholarship. Although the flat square cap or mortarboard is most usual, the University of Chicago's doctoral cap is an octagonal tam of velvet.

THE MARSHAL AND THE STUDENT MARSHALS

The office of the Marshal of the University was established in 1896 by President William Rainey Harper. The Marshal is the University's chief ceremonial officer, and is responsible for directing the formal aspects of important University events and representing the faculty at Convocation. The Marshal has traditionally been a member of the faculty, assisted by other faculty members.

The Marshal, Vice-Marshal, and Assistant Marshals of the University of Chicago wear maroon doctor's robes with alternating black velvet and gold metallic bars on the sleeves. Student Marshals wear maroon bachelor's robes with black mortarboards.

Student Marshals are appointed by the President of the University in recognition of their excellent scholarship and leadership. Appointment as a Student Marshal is the highest honor conferred by the University upon undergraduate students.

OVERVIEW OF THE DAY

Saturday, June 7, 2025

The 539th Convocation ceremony brings the entire University together to witness the conferring of degrees. More than 18,000 candidates and attendees will share in this remarkable moment. At other ceremonies held by the divisions and schools, degree candidates will be honored individually through the presentation of diplomas and/or hoods.

7:00–8:45 a.m.

Candidates assemble and attendees are seated.

9:15 a.m.

The 539th University Convocation begins with the academic procession.

11:00 a.m.–5:30 p.m.

Schools and divisions will hold individual events, including lunches, receptions, and ceremonies at different locations. Please see the section on your division or school for a schedule of events.

THE CONVOCATION SPEAKER

KUNLE ODUNSI, M.D., Ph.D.

AbbVie Foundation Distinguished Service Professor of Obstetrics and Gynecology and Medicine
Director of the University of Chicago Medicine Comprehensive Cancer Center (UCCCC)
and Dean for Oncology in the Division of the Biological Sciences

KUNLE ODUNSI's field of scholarly interest encompasses immunology and immunotherapies for cancer, specifically the treatment of ovarian cancer. His research focuses on immune recognition and tolerance in ovarian cancer and translating these findings to first-in-human clinical trials.

Among his notable contributions is the development of antigen-specific vaccine therapy and next-generation cellular therapies to extend remission rates in women with ovarian cancer. His extensive scholarly output comprises over 420 publications as well as contributions to several books and chapters.

Throughout his career, Professor Odunsi has held academic and clinical leadership roles, including director of the University of Chicago Medicine Comprehensive Cancer Center and Dean for Oncology in the Division of the Biological Sciences. He is the co-principal investigator on the Roswell Park–University of Chicago Specialized Program of Research Excellence (SPORE) in ovarian cancer.

Professor Odunsi's notable accolades include election to the National Academy of Medicine, membership in the Association of American Physicians, fellow of the American College of Obstetricians and Gynecologists, and fellow of the Royal College of Obstetricians and Gynecologists of the United Kingdom.

He is the recipient of the Rosalind Franklin Excellence in Ovarian Cancer Research Award, the Society for Reproductive Investigation Distinguished Scientist Award, and the Society of Gynecologic Oncology Innovation Award.

Professor Odunsi earned his B.Sc. in Health Sciences and MB Ch.B. (M.D.) from the University of Ife, Nigeria, a Ph.D. in Immunogenetics from the Weatherall Institute of Molecular Medicine, John Radcliffe Hospital, Oxford, U.K., and completed his residency in Obstetrics & Gynecology at Yale University School of Medicine.

His postdoctoral training spans several esteemed institutions, including his roles as clinical instructor and fellow at Roswell Park Comprehensive Cancer Center, executive chief resident at Yale University, and research fellow at the University of Oxford.

Professor Odunsi joined the University of Chicago faculty in 2021.

THE HONORARY DEGREE RECIPIENT

FOR THE DEGREE OF DOCTOR OF SCIENCE

ELI TZIPERMAN

Pamela and Vasco McCoy Jr. Professor of Oceanography and Applied Physics in the Department of Earth and Planetary Sciences and School of Engineering and Applied Sciences, Harvard University

ELI TZIPERMAN has made profound and fundamental theoretical advances across an extremely broad array of interesting and important areas in climate, including physical oceanography, glacial cycles and glacial climates, global glaciations, ice in the climate system, the El Niño-Southern Oscillation, and the Madden-Julian Oscillation. The distinguishing feature of his work is the use of simplified, yet deep and elegant, mathematical models designed specifically to reduce extremely complex systems to their most important elements, to understand the essential physics of key mechanisms at work in the natural world. This approach has led to repeated significant and groundbreaking insights, and a particular emphasis on the central role of internal dynamics rather than external forcing in governing the climate system.

The candidate will be presented by DORIAN ABBOT, *Professor, Department of the Geophysical Sciences and the College.*

CITATION

ELI TZIPERMAN is recognized for his fundamental theoretical advances across an extremely broad array of critical areas in climate science, made through the clever development of low-order mathematical models designed specifically to enhance understanding.

THE FACULTY AWARD FOR EXCELLENCE IN Ph.D. TEACHING AND MENTORING

KAY F. MACLEOD
Hospira Foundation Professor, the Ben May Department for Cancer Research and the College

KAY F. MACLEOD is a passionate and rigorous scientist who holds her students to a high standard while supporting their independent thinking and encouraging collaborative interactions. With an infectious enthusiasm for science, she motivates undergraduate students and graduate students in her research group and in the broader Cancer Biology program to reach their highest potential. She is an exceptional mentor, providing generous and insightful advice to students, trainees, and faculty, and dedicates her time to support their education and learning through teaching, personalized mentorship, and leadership of training activities across the University and the University Comprehensive Cancer Center.

The candidate will be presented by GEOFFREY L. GREENE, *Virginia and D.K. Ludwig Professor, the Ben May Department for Cancer Research and the College; Chair, the Ben May Department for Cancer Research.*

CITATION

Through her passionate, rigorous, and encouraging approach to scientific inquiry and training, KAY F. MACLEOD's leadership has contributed to the development of a future generation of leaders in cancer biology.

THE FACULTY AWARD FOR EXCELLENCE IN PH.D. TEACHING AND MENTORING

TIMOTHY M. HARRISON

Associate Professor, Department of English Language and Literature, the John U. Nef Committee on Social Thought and the College

For someone so young, TIMOTHY M. HARRISON has already built a remarkable profile as a mentor and teacher to Ph.D. students across two divisions and several departments. Not only has he nurtured the dissertation projects and careers of a number of emerging scholars in his home field of early modern English literature, he has also shaped the work of doctoral students in programs such as Germanic Studies, Comparative Literature, and the Committee on Social Thought. In his teaching, he shows a rare combination of deep erudition, intellectual curiosity, and a pedagogical egalitarianism according to which he treats students as colleagues rather than disciples. Whether in his many informal reading groups, seminars, or one-on-one meetings, he models the kind of care and attention that makes for the best graduate teaching.

The candidate will be presented by ANTON FORD, *Deputy Dean, Division of the Humanities.*

CITATION

TIMOTHY M. HARRISON has nurtured the ideas and careers of Ph.D. students across a remarkable array of disciplines. Erudite, intellectually curious, and kind, he is a singular mentor for our graduate students.

THE FACULTY AWARD FOR EXCELLENCE IN PH.D. TEACHING AND MENTORING

BRYAN C. DICKINSON
Professor, Department of Chemistry and the College

By fostering a dynamic, inclusive learning environment, BRYAN C. DICKINSON transforms diverse educational journeys through exceptional mentoring and teaching. Since joining the faculty, he has guided many trainees—undergraduates, graduate students, and postdoctoral scholars—empowering them to excel in research and pursue career goals. His approachable demeanor, organized lectures, and innovative course on the discovery and translation of molecular therapeutics spark intellectual curiosity and cultivate independent scientific thinking. He tailors his mentorship to individual needs, creating a community where inquiry meets creative problem solving. His commitment to personalized guidance and holistic student development makes him an indispensable pillar of academic excellence.

The candidate will be presented by JIWOONG PARK, *Professor, Department of Chemistry, Pritzker School of Molecular Engineering and the College; Chair, Department of Chemistry.*

CITATION

By creating an atmosphere of collaboration and innovative exploration, BRYAN C. DICKINSON's mentorship has cultivated emerging scientific leaders dedicated to advancing transformative chemical biology research.

THE ARTHUR L. KELLY PRIZE FOR EXCEPTIONAL FACULTY SERVICE IN THE PHYSICAL SCIENCES

ANDREW J. CAMPBELL
Professor, Department of the Geophysical Sciences and the College
Chair, Department of the Geophysical Sciences

ANDREW J. CAMPBELL, Chair and Professor in the Department of the Geophysical Sciences and the College, receives the Arthur L. Kelly Faculty Prize in recognition of his service as Chair of Geophysical Sciences since 2022 and Deputy Dean for Infrastructure from 2019 to 2021, as well as for his leadership as Principal Investigator and Director of Synchrotron Earth and Environmental Sciences (SEES). As Deputy Dean, Campbell supported research infrastructure and space in the Division, particularly assisting with development of the new High Bay Research Building. Under his leadership as Chair, the Department hired eight new faculty members and launched the Climate Systems Engineering initiative, as well as a new master's program in environmental science. As PI of SEES, Campbell oversees a facility that brings additional synchrotron resources to earth and environmental sciences research across the country, providing central organization and access for transformational science.

The candidate will be presented by KA YEE C. LEE, *Dean, Division of the Physical Sciences; David Lee Shillinglaw Distinguished Service Professor, Department of Chemistry, James Franck Institute, Institute for Biophysical Dynamics and the College.*

CITATION

ANDREW J. CAMPBELL is recognized for exceptional service to the Physical Sciences Division, the Department of the Geophysical Sciences, and Synchrotron Earth and Environmental Sciences (SEES). As PSD's Deputy Dean for Infrastructure, Campbell supported research infrastructure and space, particularly assisting with the development of the new High Bay Research Building. Under his leadership as Department Chair, Geophysical Sciences launched the Climate Systems Engineering initiative and an environmental science master's program. As PI and Director of SEES, Campbell oversees a facility that brings synchrotron resources to Earth and environmental sciences research. Campbell's contributions have enabled transformative education at UChicago and transformational science nationwide.

THE FACULTY AWARD FOR EXCELLENCE IN PH.D. TEACHING AND MENTORING

TIMOTHY M. HARRISON

Associate Professor, Department of English Language and Literature, the John U. Nef Committee on Social Thought and the College

For someone so young, TIMOTHY M. HARRISON has already built a remarkable profile as a mentor and teacher to Ph.D. students across two divisions and several departments. Not only has he nurtured the dissertation projects and careers of a number of emerging scholars in his home field of early modern English literature, he has also shaped the work of doctoral students in programs such as Germanic Studies, Comparative Literature, and the Committee on Social Thought. In his teaching, he shows a rare combination of deep erudition, intellectual curiosity, and a pedagogical egalitarianism according to which he treats students as colleagues rather than disciples. Whether in his many informal reading groups, in seminars, or in one-on-one meetings, he models the kind of care and attention that makes for the best graduate teaching.

The candidate will be presented by JOEL ISAAC, *Associate Professor, the John U. Nef Committee on Social Thought, Department of History and the College; Chair, the John U. Nef Committee on Social Thought.*

CITATION

TIMOTHY M. HARRISON has nurtured the ideas and careers of Ph.D. students across a remarkable array of disciplines. Erudite, intellectually curious, and kind, he is a singular mentor for our graduate students.

ALEX SHAW

Associate Professor, Department of Psychology and the College

ALEX SHAW is a relentless and dedicated mentor, who simultaneously challenges his students while also providing them with immense support. He is a selfless and compassionate mentor who is generous with his time and remarkably responsive to his students' needs. His devotion to mentorship continues well beyond his students' time at UChicago, where his former Ph.D. students continue to go to him for scientific and professional advice. He is a brilliant thinker and utilizes his intellectual sharpness and analytical finesse to guide students with their research questions with great success. Students describe him as more than a mentor, but also a collaborator, empowering them to take control of their work and helping them to develop the confidence to own and hone their own ideas.

The candidate will be presented by MARC G. BERMAN, *Professor, Department of Psychology and the College; Chair, Department of Psychology.*

CITATION

By challenging and supporting his students' scientific endeavors, ALEX SHAW's mentorship has produced leading scholars in developmental psychology. His relentless devotion to mentoring has benefited his students and the Psychology department as a whole.

CLOSING REMARKS

MADHAV V. RAJAN
Dean, Booth School of Business

THE FACULTY AWARD FOR EXCELLENCE IN PH.D. TEACHING AND MENTORING

JOHN R. BIRGE

Hobart W. Williams Distinguished Service Professor of Operations Management, Booth School of Business

As the first Booth School of Business recipient of this honor, JOHN R. BIRGE is an exceptional mentor whose dedication to his students has left a lasting impact on their academic and professional lives. He meets students where they are, recognizing and nurturing their individual talents, ultimately guiding them to pursue their passions and achieve their goals. His encouragement to "tear down" disciplinary boundaries has fostered a dynamic, interdisciplinary, and innovative research environment where students flourish. Seamlessly blending intellectual rigor with patience, caring, and kindness, his students feel valued, supported, and inspired. His profound influence on the next generation of researchers exemplifies true mentorship, inspiring them to one day guide others with the same exceptional dedication.

The candidate will be presented by JEFFREY R. RUSSELL*, Alper Family Professor of Econometrics and Statistics; Faculty Director of the Stevens Doctoral Program, Booth School of Business.*

CITATION

By fostering a dynamic, supportive, and rigorous research environment, JOHN R. BIRGE inspires students in operations management, enabling them to excel in research and as mentors themselves.

UNIVERSITY CEREMONY

Main Quadrangle

9:15 a.m.

LUNCH DISTRIBUTION AND DIPLOMA CEREMONIES

for graduates, families, and friends

See listing of locations on the following pages.

11:30 a.m.

12:45 p.m.–All graduates are requested to be in line, after receiving their marching cards

1:00 p.m.–All guests are requested to be in their seats

1:15 p.m.–Diploma Ceremonies begin

Lunch Distribution and Diploma Ceremony locations are listed below.
Please reference the details for the residence hall community with which the graduate is affiliated.

BURTON-JUDSON COURTS

House Communities: Chamberlin, Coulter, Dodd-Mead,
Linn-Mathews, Salisbury, and Vincent

Lunch Distribution and Diploma Ceremony

Midway Skating Rink
Midway Plaisance between South Ellis Avenue and South Woodlawn Avenue
Presided over by ANDREW SIEGEL *and* PATTY JONES, *Resident Deans*

CAMPUS NORTH RESIDENTIAL COMMONS EAST AND WEST

House Communities: Behar, Boyer, Dougan-Niklason, Rogers,
Strongin, Thangaraj, Trott, and Yuen

Lunch Distribution and Diploma Ceremony

Gerald Ratner Athletics Center, Competition Gym
5330 South Ellis Avenue
Presided over by JAMES *and* JEANNIE EVANS, *Resident Deans (East);*
and STEVEN RINGS *and* JENNIFER IVERSON, *Resident Deans (West)*

INTERNATIONAL HOUSE AND STONY ISLAND HALL

House Communities: Booth, Breckinridge, Phoenix, Shorey, Stony Island, and Thompson

Lunch Distribution and Diploma Ceremony

Midway Plaisance Central
South Woodlawn Avenue between East 59th Street and Midway Plaisance North
Presided over by CRAIG *and* KENYATTA FUTTERMAN, *Resident Deans*

MAX PALEVSKY RESIDENTIAL COMMONS AND SNELL-HITCHCOCK HALL

House Communities: Alper, Flint, Graham, Hitchcock, Hoover, May, Rickert, Snell, Wallace, and Woodward

Lunch Distribution

Harper Quadrangle
North of Harper Memorial Library, 1116 East 59th Street

Diploma Ceremony

Main Quadrangle
5801 South Ellis Avenue
Presided over by JASON *and* SUZANNE RIGGLE, *Resident Deans (Palevsky); and* ABDULLAH *and* ANTOINETTE PRATT, *Resident Deans (Snell-Hitchcock)*

RENEE GRANVILLE-GROSSMAN RESIDENTIAL COMMONS EAST AND WEST

House Communities: Cathey, Crown, DelGiorno, Jannotta, Halperin, Keller, Kenwood, and Wendt

Lunch Distribution and Diploma Ceremony

Campus South Athletic Field
6034 South Kimbark Avenue
Presided over by WILLIAM NICKELL *and* MARYSE MEIJER, *Resident Deans (East); and* TINA POST *and* MARK TEMELKO, *Resident Deans (West)*

WOODLAWN RESIDENTIAL COMMONS EAST AND WEST

House Communities: Baker, Casner, Chenn, Eka, Fama, Gallo, Han, Liew, Markovitz, Rustandy, and Yovovich
Lunch Distribution and Diploma Ceremony

Practice Field
56th Street and Drexel Avenue
Presided over by THOMAS *and* CLARA CHRISTENSEN, *Resident Deans (East); and* TIMOTHY HARRISON *and* CHRISTINA SMIT, *Resident Deans (West)*

THE LLEWELLYN JOHN AND HARRIET MANCHESTER QUANTRELL AWARDS FOR EXCELLENCE IN UNDERGRADUATE TEACHING

DAVID CASH

Professor, Department of Computer Science and the College

DAVID CASH has shown exceptional dedication to teaching and mentoring undergraduates in the classroom and beyond during his seven years of appointment at the University of Chicago. A pioneer in cryptography and computer security systems, he teaches College courses that are unique and inspirational, training students in cutting-edge science and technology, highlighting both the current state of the field and areas where future innovations are required. This connection goes well beyond the classroom and into his research work with our undergraduates as well. As noted among comments from his numerous nominators, one student wrote: "Many experts struggle to teach about the subjects they are most passionate about because they forget that the things they find obvious and self-explanatory may not be so for their students. This was not the case for Professor Cash."

Another stated he successfully "molds the minds of computer science students who have not touched the theoretical aspects of computer science . . . (where his) in-depth knowledge in the field allows students to ask arbitrary questions and receive a concise, accurate, and impactful response."

The candidate will be presented by HENRY HOFFMANN, *Liew Family Chair, Department of Computer Science and the College; Chair, Department of Computer Science.*

CITATION

DAVID CASH is honored by his students and colleagues for his exemplary teaching and research mentorship of undergraduates in the field of cybersecurity.

ELEONORA GILBURD

Associate Professor, Departments of History, Slavic Languages and Literatures and the College

ELEONORA GILBURD is a highly original historian who studies all aspects of culture in Russia and its environs in the modern era. In work such as her multiple award-winning book To See Paris and Die, she has revealed the many ways in which the Soviet Union engaged in a broad-based and profoundly consequential process of translation during the Cold War, often embracing artistically a West that it rejected politically. That sensitivity to culture in translation also stands out in her pedagogy. Teaching across the Soviet and post-Soviet world, she inspires students from diverse backgrounds to recognize the vital relationships that have defined our many histories. Students praise her for her dedication and ability to connect them with aspects of eastern Europe that might otherwise remain beyond reach.

The candidate will be presented by ADRIAN JOHNS, *Allan Grant Maclear Distinguished Service Professor, Department of History and the College; Chair, Department of History.*

CITATION

ELEONORA GILBURD brings extraordinary dedication to her teaching of Soviet and post-Soviet history, engaging with students from a variety of backgrounds to help them understand some of the most important cultural and political currents of the age. Her teaching and mentorship inspire them not only to produce original and creative work but also to thrive as members of our scholarly community.

LENORE A. GRENOBLE

John Matthews Manly Distinguished Service Professor, Department of Linguistics and the College

LENORE A. GRENOBLE is a distinguished scholar whose profound contributions to the study of language contact and shift in Indigenous settings have illuminated critical linguistic dynamics globally, including the Arctic. She employs an empirically driven approach to examine language interactions in diverse multilingual environments, shedding light on the intricate interplay between linguistic, social, and cognitive factors in linguistic communities. Her groundbreaking research addresses the complex impacts of urbanization and climate change on language vitality, while also pioneering efforts in language revitalization and sustainable linguistic practices.

The candidate will be presented by ALAN YU*, William Colvin Professor, Department of Linguistics and the College; Chair, Department of Linguistics.*

CITATION

Through her dedicated teaching and passion for scholarship, LENORE A. GRENOBLE has instilled in her students a profound appreciation for an empirically driven approach to examine language interactions in diverse multilingual settings, shedding light on the intricate interplay between linguistic, social, and cognitive factors in linguistic communities around the globe.

CATHERINE ANN PFISTER

Professor, Department of Ecology and Evolution and the College

CATHERINE ANN PFISTER's research spans diverse scales of biological organization, from microbial communities in kelp forests to entire biomes impacted by climate change. This unparalleled expertise and her genuine enthusiasm for the discipline translate directly into the classroom. Her Ecology and Conservation course brings the subject to life through engaging case studies that ground theoretical concepts, complemented by field trips offering practical, real-world application. Students consistently praise her clarity, enthusiasm, and the compelling sense of excitement and urgency she conveys. They highlight that the field trips were instrumental in fostering the "strongest camaraderie of any class I've ever had," and that she "brings a lot of passion and knowledge to the topic that is engaging and creates an enthusiastic atmosphere."

The candidate will be presented by STEFANO ALLESINA, *Professor, Department of Ecology and Evolution and the College; Chair, Department of Ecology and Evolution.*

CITATION

CATHERINE ANN PFISTER's deep knowledge and enthusiasm make her courses, touching on some of humanity's most pressing challenges, both exhilarating and inspiring for students, using case studies and field trips to bring the subject to life.
